April 2017

Glengrove Neighbourhood Residents

Subject: Upgrades to Glengrove Park

We are pleased to advise that after speaking with Glengrove neighbourhood residents and City Staff about the need for improvements to Glengrove Park, we were able to have the improvements to the park included in the City of Pickering's 2017 budget.

The City of Pickering will be completing a number of upgrades later in 2017. Work includes:

- Replacement of the asphalt walkways.
- Extension of the walkway to Fieldlight Boulevard to provide connections to the children's playground and basketball court.
- New LED pathway lighting.
- Resurfacing and replacement of the fencing around the basketball courts.
- New site furniture, including benches and garbage receptacles.
- Upgrades to existing children's playground through the addition of play components to make the area compliant with the *Accessibility for Ontarians Disabilities Act (AODA)*.

Should you have any questions, you are welcome to contact the City of Pickering Customer Care staff at 905.683.7575. As always, you are welcome to contact us.

Yours truly

David Pickles
Regional Councillor – Ward 3
